

SHIELD Special Health Care Needs Library

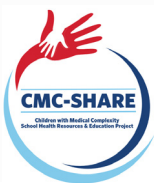

Visit the website:
sites.bu.edu/shield/shcn

The SHIELD Special Health Care Needs (SHCN) Library is a pilot site, an online resource built **FOR** School Nurses **WITH** School Nurses.

The goal of this site is to become a “one-stop shop” for school nurses searching for **free, curated resources** to support nursing care and coordination for students with special health care needs. Our site includes articles, videos, podcasts, and courses that address a diverse range of topics and medical conditions.

We curated sources with busy school nurses in mind, so all materials require **two hours or LESS to complete or review**.

This pilot site will be updated with new resources and features over time. It is so important that this site is **relevant to YOU, our school nurse audience** and feedback will be crucial as we expand our offerings.

This learning library is part of the **Children with Medical Complexity School Health Resources & Education (CMC-SHARE) Project**. CMC-SHARE is a collaboration between the [Massachusetts Department of Public Health School Health Unit \(MA DPH SHU\)](#), the [Massachusetts Technology Assistance Resource Team \(MASSTART\)](#), and the [School Health Institute for Education and Leadership Development \(SHIELD\)](#).
