

RISQCS

Radiology Interventions Safety, Quality, and Complications Symposium

September 9-10, 2022

Virtual (Livestream)

Yolanda Bryce, MD
2022 Guest Course Director

Assistant Attending
Memorial Sloan Kettering Cancer Center

Mikhail C. S. S Higgins, MD, MPH
CME Course Director

RISQCS Founding Chair
Assistant Professor
Director, Radiology Medical Student Clerkship
Program Director, Early Specialization in Interventional Radiology (ESIR) Pathway
Division of Interventional Radiology
Department of Radiology
Boston University School of Medicine

Accreditation

Boston University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

This activity has been approved for *AMA PRA Category 1 Credit™*.

This program meets the criteria of the Massachusetts Board of Registration in Medicine for risk management study.

For more details or to register, please visit:

We welcome you to another exciting, interactive and highly educational Risk Management, Quality and Safety symposium geared towards our global Interventional Radiology community!

The meeting will be held *virtually* on **Friday, September 9th and Saturday, September 10th 2022**. It will follow our 2nd annual Medical Student and Trainee IR Device and Risk Management Bootcamp which will be held in Boston, MA at Boston University's Questrom School of Business on Friday September 9th 2022.

The symposium's ongoing mission is to provide a constructive community space that supports honest, in depth and informative insights on the ever-evolving, multi-dimensional landscape of complications, adverse events, medical error, risk management and litigation in IR through engaging collegial sessions that provide practical learning for all members of the IR team.

Our goal with this IR Risk Management, Quality and Safety conference is to fill a current educational void in the field of IR that supports constructive practice-building discussions and peer-learning on complications, ethics, and controversial issues in IR, designed for practicing Interventional Radiologists, IRs-in-training, and IR APPs, with special attention to early career IRs.

To accomplish this objective, this year's exciting agenda will include the 5-following core educational components:

1. **Identity Challenges and Risk Management in IR:** (Friday, September 9th, 2022)
2. **Second Victim Syndrome: the IR Perspective:** (Friday, September 9th, 2022)
3. **Industry and IR: Conflicts of Interest:** (Saturday, September 10th, 2022)
4. **Standards of Practice Debate:** (Saturday, September 10th, 2022)
5. **Complications Mastermind, Misses and Near Misses in the IR Suite:** (Saturday, September 10th, 2022)

Featured Talks

KEYNOTE: "Abiding Lessons from my Most Treasured Complications"

Anne Marie Cahill, MB Bch BAO, FSIR, FCIRSE
Division Chief, IR
Professor of Radiology, Perelman School of Medicine
Endowed Chair of Pediatric Interventional Radiology

"Mundane Cases: Embracing the Role of the Heroic IR... to do or not to do"

Kavi Devulapalli, MD, MPH
St. Francis Medical Center

"Complications Mastermind: PERT Unknown Case"

Joseph Gemmete, MD, FSIR, FACR, FCIRSE, FAHA
Clinical Professor, Radiology
Clinical Professor, Otolaryngology
Director, Neurointerventional Radiology Fellowship Program
Division of Neuroradiology
Division of Vascular and Interventional Radiology
Neurointerventional Radiologist

Boston University School of Medicine
Barry M. Manuel Continuing Medical Education Office
Department of Radiology
